

In our efforts for social distancing and doing our part in flattening the curve as recommended by the Centers for Disease Control (CDC), we are continuing to accept applications of individuals meeting our Core Values. However, we may delay the hiring of some positions to effectively and safely train new employees during this crisis.

We ask for patience as we work through these challenging times and we will try to keep in touch with applicants the best we can while maintaining the care for our 2,000+ residents and clients that we serve along with our employees. During this timeframe we may conduct interviews via teleconferencing or video conferencing.

We hope and pray that the efforts everybody takes will result in this crisis ending sooner than later for the health and wellness of everyone.
